

Asadullah

Data Engineer and Data Analyst

 in/asadullah-sheikh-4bb598209  asadullahsheikh9@gmail.com  +92 3244641001

Profile

Experienced Data Engineer with expertise in PySpark, SQL, Databricks, and Azure Data Engineering, specializing in building and optimizing scalable data pipelines. Skilled in ingesting diverse data sources into Datalake platforms, performing data cleaning, transformation, and summarization to meet business requirements. Proficient in designing and implementing robust workflows, monitoring, and quality checks to ensure consistent and reliable data delivery while maintaining high standards of data quality.

Professional Experience

Data Engineer, (*Confiz Limited*)

Lahore, Pakistan 07/2022 - present

- Worked as a data engineer for a UK based multinational telecommunication company which has won multiple awards in UK on its data platform.
- Expanded data sources by ingesting multiple new streams into our Datalake utilizing PySpark and Databricks. Employed Azure Synapse Data Warehouse for efficient data warehousing. Orchestrated workflows for these processes with Azure Data Factory, while also implementing validation checks and monitoring.
- Led the development and implementation of Logic Apps solutions across multiple projects within Datalake.
- Spearheaded performance optimization initiatives for the Azure Synapse Data Warehouse, significantly reducing data processing times and improving reporting efficiency to empower business stakeholders.
- Implemented various cost optimization initiatives on the platform, achieving a 20-30% reduction in overall platform costs.
- Took the initiative to design and deliver an AI Agent "support bot" that automated on-call support tasks, saving the team 30 hours of manual work per month.
- Built and demoed a multilingual AI voice assistant using speech recognition and Generative AI technologies, winning the client's hackathon for innovation in customer service.
- Utilized a variety of tools and technologies including PySpark, SQL, Azure Data Factory, Azure Databricks, and Synapse Data Warehouse to address ad-hoc business requests and manage bugs/BAUs (Business-As-Usual tasks).

Online Courses & Certifications

- Databricks Certified Data Engineer Associate (July. 2025) - [Databricks](#)
- Data Warehouse Fundamentals (Sep. 2022) - [Udemy](#)
- SQL (Advanced) Certificate (May. 2024) - [Hackerrank](#)
- DP-203 - Data Engineering on Microsoft Azure 2023, (June. 2023) - [Udemy](#)

Education

Bachelor of Computer Science *FAST NUCES*

Lahore, Pakistan 2018-2022

Relevant Courses: Database Systems, Data Warehousing & Data Science, Artificial Intelligence, Programming Fundamentals & OOP, Data Structures & Algorithms.

Skills

- **Extract, Transform & Load(ETL):** Databricks, Azure Data Factory, Azure Logic Apps, Apache Nifi
- **Data Warehousing:** Azure Synapse Data Warehouse
- **Technical Skills:** Python, Spark, SQL, Optimization, Quality Assurance, Data Modeling, Data Warehousing, ETL, Generative AI
- **Soft Skills:** Ownership, Agile, Communication, Planning, Presentation, Problem-Solving, Teamwork, Adaptability, Analytical Thinking
